**DIRECTORATE OF ECONOMICS & STATISTICS**

Dated, Agartala, 24<sup>th</sup> April, 2006

**PRESS RELEASE**

Planners, policy makers, administrators, researchers requires data on economic activities, level of living etc. at state level. The State Domestic Product (SDP) is thought to be one of the most important indicators to measure the economic growth/ development of the state vis-a-vis other states.

The Directorate of Economics & Statistics (DES), Government of Tripura under the Planning (Statistics) Department has been preparing and releasing the State Domestic Product (SDP) after following the methodology and guidelines of Central Statistical Organisation, Ministry of Statistics & Programme Implementation, Government of India as a part of 'National Accounts Statistics'.

In State Domestic Product (SDP) measures the total value of final output in monetary term produced within the geographical boundary of a state during a particular year without duplication.

The estimates at current prices are worked out by evaluating all goods and services produced at factor cost prevailing in a particular year. The estimates at constant prices are worked out by using the base year price to eliminate the effect of price changes and thereby reflect the real growth / development of the economy.

The estimates for Gross State Domestic Product (GSDP) and Net State Domestic Product (NSDP) both at current and constant prices is prepared and finalised by the Directorate from 1993-94 to 2002-03 with 1993-94 base. The provisional estimate for 2003-04 has also been prepared. The salient features of the estimates with 1993-94 base are indicated below: -
