

Government of Tripura

**HALF YEARLY
PRICE BULLETIN**

**of
Average Retail Prices in Rural Markets
of
Tripura**

January-2019 to June-2019

**Directorate of Economics & Statistics
Planning (Statistics) Department
Government of Tripura, Agartala
www.destripura.nic.in
www.ecostat.tripura.gov.in**

“PREFACE”

The collection and release of market price which is presented through this **“Half Yearly Price Bulletin of average retail price in rural markets of Tripura, January, 2019 to June, 2019”** is an important Statistics for evolution purpose.

In the present days, price statistics capture the inflation. Therefore, it is an important compilation to undertake study of the price behaviour in all eight districts of the State.

It is expected that this bulletin will be helpful to the administrators, policy makers, research workers and other users.

This publication is prepared and published by Price Division of this Directorate. I appreciate the work done by Officer & Officials of this Directorate and all the price reporters of this Department for preparing such a publication.

Suggestions, if any, for improving the publication is solicited

(Pratap Chakma, IAS)
Director
Economics & Statistics
Government of Tripura

INTRODUCTION

Market price for the common man is the consideration paid in exchange of acquisition or availableness of goods or services either in cash or kind in both. It denotes the rate in which goods are exchanged for money. Through prices trends to increase with increased wages, it is however, the increased price that ignites the demand for the increased wages. It is therefore, may be difficult to decipher as to which is the cause and which is the effect.

Market prices affected all sections of society and much price statistics are regarded as the most important economic data which influence/ reflect the change in economic activities. The change in prices can be measured both in absolute and relative terms.

This Directorate of Economics & Statistics, Planning (Statistics) Department, Government of Tripura collects retail prices of 108 essential commodities including goods and miscellaneous services from 148 selected rural markets from 8-district and compiles the average and index numbers to meet the various requirements of State Government and for estimation of Gross State Domestic Product (GSDP) and also widely used by the order organization for policy making purpose.

What is market?

Market means a place where buyer and seller meet together in order to carry on transactions of goods and services in an economy.

But, in economics, it may be a place, perhaps may not be. In economics, market can exist even without direct contact of buyer and seller.

Marketing wing of the Department is require to be strengthened. Market Board in the State level is also required to be strengthened.

As per amendment made in the 2nd Amendment of Tripura Agriculture Produce Market Act, 2007 there is provision for de-establishment of markets. The provision was kept for handling over markets if require as per decision of the Government where De-establishment becomes necessary. But following this provision if all the regulated markets is handed over to the local authority the control of the Department of those market may not be feasible as per act as the market act of Municipality/ ADC/ Revenue Department will come into force for regulation of those market. There may not be any special attention for marketing of Agricultural produce only.

Moreover, as per guidance of Government of India assistance for development of marketing infrastructure will be considered only in the state where duly amended Agricultural Produce Market Act is in existence. Handing over of regulated markets may adversely effect on getting any sanction from Government of India under Central Sector Scheme for development of market infrastructure as the existence of Agriculture Produce Market Act will be in question.

However, handing over of Agricultural Produce Markets may be effected by Notification of the Government as per Government decision with condition that the local authority will manage the market as per of Agricultural Produce Market Act, 1980. Besides, other conditions like:

1. Staff/ Workers in the regulated market will be in position.
2. Transfer of assets and fund of market committee will be made as per rule.
3. Benefit to the farmers for marketing their Agricultural Produce is to be restored.
