## DIRECTORATE OF ECONOMICS & STATISTICS GOVERNMENT OF TRIPURA

No.F:6(42)/STAT/PRICE/2009/ 488%

\* Dated 8 / 64/2022

## INDEX OF INDUSTRIAL PRODUCTION OF TRIPURA FOR THE YEAR 2019-20 (BASE YEAR: 2011-12=100)

Index of Industrial Production (IIP) with 2011-12 base is derived to measure the changes in the industrial production over a period of time at the factory/unit level production of selected items. In practice, only productions of few factories/units on selected item basket are collected for compilation of monthly indices for which a regular and steady flow of production are available.

IIP measures the general level of industrial performance in the economy and used as a short-term macro economic indicator of industrial growth.

State level IIP of Tripura is calculated on the basis of the production collected from 92 selected factories on 20 selected items taking 2011-12=100 as the base year.

### 1) Year-2019-20:

The Index of Industrial Production (IIP) with base 2011-12 for the month of March-2020 stands at 206.1, which is 35.2 percent decline as compared to the level in the month of March-2019 (IIP for Mar'19 was 318.1). The average growth for the period April to March, 2019-20 over the average growth of corressponding period of the previous year stands at (-) 6.6 percent.

The Indices of Industrial Production for the Mining, Electricity and Manufacturing sectors for the month of March-2020 stand at 177.9, 308.2 and 118.3 respectively, with the corresponding growth rates of (-)34.4 percent, (-)40.8 percent and (-)3.0 percent as compared to March-2019 (<u>Statement-1</u>).

N.B: Bricks (NIC-239): The bricks manufacturing industry is basically a seasonal enterprises operates mainly during October to March in Tripura and thereafter, remain closed for rest of the months. Hence, the production data are not available for all the months in the State and therefore, effects the overall manufacturing components of IIP and trends in the State.
